[other official language] [party]
will need [select one]:
☐ consecutive interpretation services.
Or
☐ simultaneous interpretation services.

Notice to the Party: As a party to a divorce case, you can request interpretation services to understand what is said in the other official language at the court hearing. You may choose between consecutive interpretation or simultaneous interpretation. If no selection is made, **consecutive interpretation** will be made available.

Consecutive interpretation means that the interpreter will translate after the person speaking is done a part of what they have to say. The person and the interpreter take turns speaking. This type of interpretation may allow parties, witnesses and legal advisors to better ensure the accuracy of the interpretation because they hear both what the person and the interpreter are saying. But, it does take more time than simultaneous interpretation.

Simultaneous interpretation means that the interpreter will translate what is being said at the same time as you are speaking. This type of interpretation is quicker but may be less accurate than consecutive interpretation because the interpreter is speaking at the same time as the person being interpreted.
